

Steps Of Process

Step 1. Registered Myself on GitHub by entering my college email id...

The screenshot shows the GitHub registration page. At the top left is the GitHub logo. At the top right, it says "Already have an account? Sign in →". The main content area has a dark blue background with a starry pattern. A central white box contains the text "Welcome to GitHub! Let's begin the adventure". Below this, it says "Enter your email*" and shows the email "2201031800010@silveroakuni.ac.in" entered in a text field. A green "Continue" button is to the right of the text field. Below the text field, there is a small disclaimer: "By creating an account, you agree to the [Terms of Service](#). For more information about GitHub's privacy practices, see the [GitHub Privacy Statement](#). We'll occasionally send you account-related emails." At the bottom, there is a footer with the GitHub logo, "© 2024 GitHub, Inc.", and links for "Terms", "Privacy", "Security", "Status", "Docs", "Contact", "Manage cookies", and "Do not share my personal information".

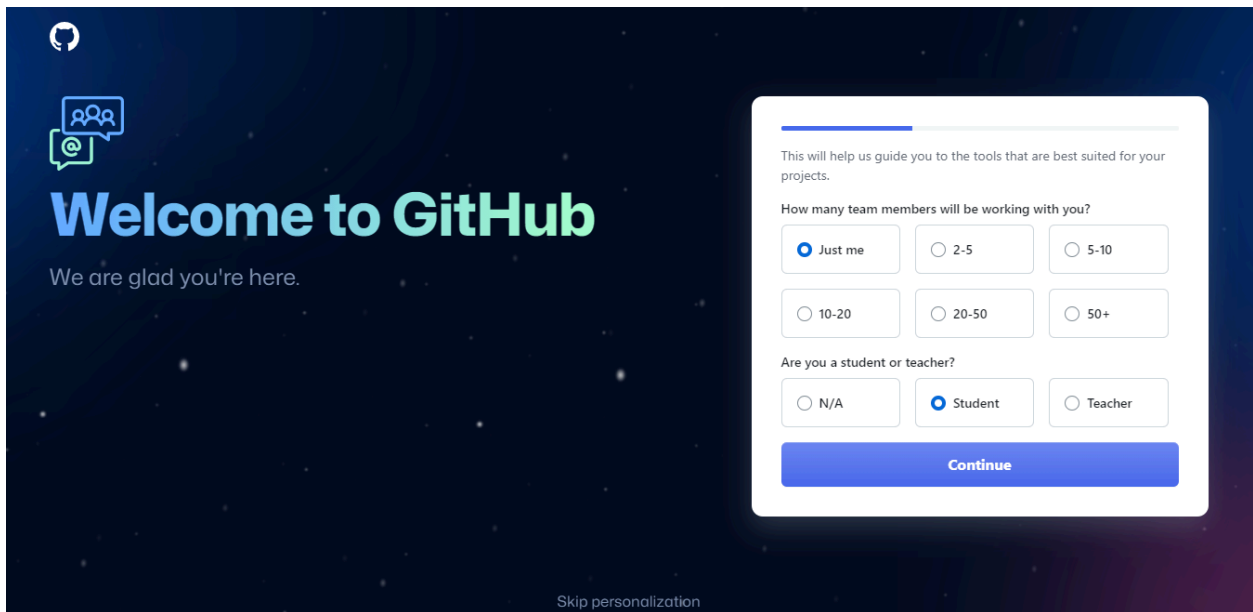

Step 2. Then entered my Password...

The screenshot shows the GitHub registration page, now at the password entry step. The layout is similar to the previous screen. The central white box contains the text "Welcome to GitHub! Let's begin the adventure". Below this, it says "Enter your email*" and shows the email "2201031800010@silveroakuni.ac.in" with a green checkmark to its left. Below the email, it says "Create a password*" and shows a password field with dots. A green "Continue" button is to the right of the password field. Below the password field, there is a green bar and the text "Password is strong". Below this, it says "Make sure it's at least 15 characters OR at least 8 characters including a number and a lowercase letter." At the bottom, there is a small disclaimer: "By creating an account, you agree to the [Terms of Service](#). For more information about GitHub's privacy practices, see the [GitHub Privacy Statement](#). We'll occasionally send you account-related emails." At the bottom, there is a footer with the GitHub logo, "© 2024 GitHub, Inc.", and links for "Terms", "Privacy", "Security", "Status", "Docs", "Contact", "Manage cookies", and "Do not share my personal information".

Step 3. After that select Username and done with verification.

And my GitHub page has been created successfully after completing personalization.

The image shows the GitHub 'Welcome to GitHub' screen. On the left, there's a dark blue background with the GitHub logo at the top left, a speech bubble icon with three people, and the text 'Welcome to GitHub' in large white letters, followed by 'We are glad you're here.' in smaller white text. At the bottom right of this section, there is a link that says 'Skip personalization'. On the right, there is a white form with a blue progress bar at the top. The form contains the following sections: 1. 'This will help us guide you to the tools that are best suited for your projects.' 2. 'How many team members will be working with you?' with radio button options: 'Just me' (selected), '2-5', '5-10', '10-20', '20-50', and '50+'. 3. 'Are you a student or teacher?' with radio button options: 'N/A', 'Student' (selected), and 'Teacher'. At the bottom of the form is a blue 'Continue' button.

Welcome to GitHub
We are glad you're here.

Skip personalization

This will help us guide you to the tools that are best suited for your projects.

How many team members will be working with you?

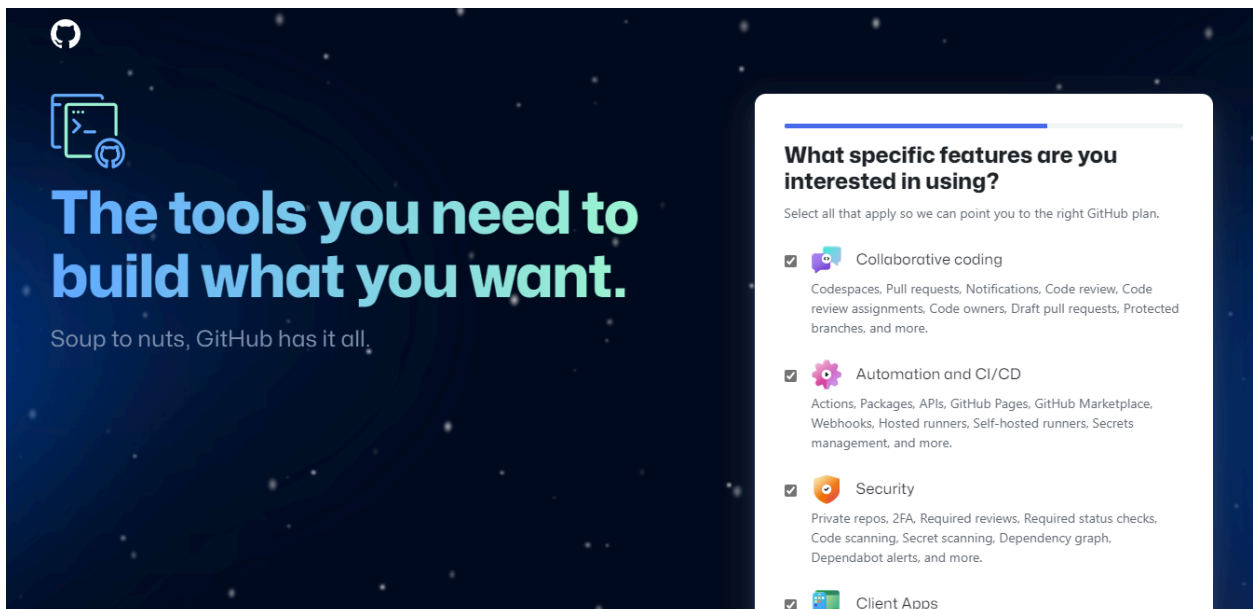

☒ Just me ☐ 2-5 ☐ 5-10

☐ 10-20 ☐ 20-50 ☐ 50+

Are you a student or teacher?

☐ N/A ☒ Student ☐ Teacher

Continue

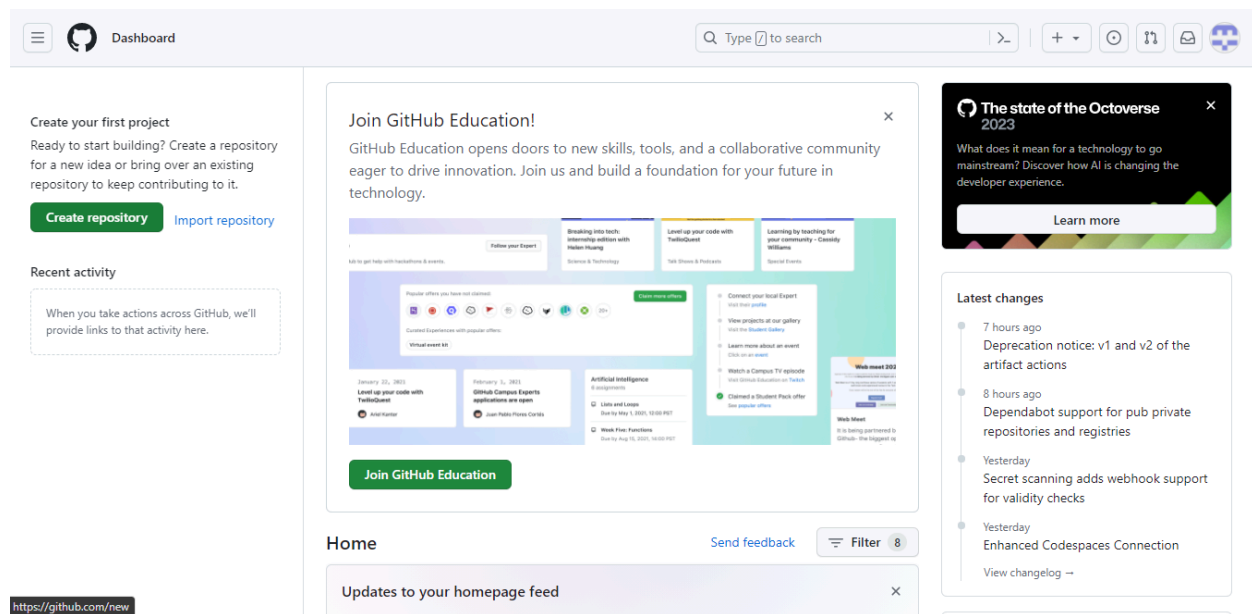

The image shows the GitHub screen titled 'The tools you need to build what you want.' On the left, there's a dark blue background with the GitHub logo at the top left, a code editor icon, and the text 'The tools you need to build what you want.' in large white letters, followed by 'Soup to nuts, GitHub has it all.' in smaller white text. On the right, there is a white form with a blue progress bar at the top. The form contains the following sections: 1. 'What specific features are you interested in using?' 2. 'Select all that apply so we can point you to the right GitHub plan.' 3. Four checked checkboxes with feature categories: 'Collaborative coding' (with a speech bubble icon), 'Automation and CI/CD' (with a gear icon), 'Security' (with a shield icon), and 'Client Apps' (with a mobile phone icon). Each category has a list of specific features below it.

The tools you need to build what you want.
Soup to nuts, GitHub has it all.

What specific features are you interested in using?
Select all that apply so we can point you to the right GitHub plan.

- ☒  **Collaborative coding**
Codespaces, Pull requests, Notifications, Code review, Code review assignments, Code owners, Draft pull requests, Protected branches, and more.
- ☒  **Automation and CI/CD**
Actions, Packages, APIs, GitHub Pages, GitHub Marketplace, Webhooks, Hosted runners, Self-hosted runners, Secrets management, and more.
- ☒  **Security**
Private repos, 2FA, Required reviews, Required status checks, Code scanning, Secret scanning, Dependency graph, Dependabot alerts, and more.
- ☒  **Client Apps**

Step 4. After all of these I created a Repository named as my **Enr no. 2201031800010** containing two folders named **Assignment-1 & Assignment-2** .

<https://github.com/new>

Create a new repository

A repository contains all project files, including the revision history. Already have a project repository elsewhere? [Import a repository.](#)

Required fields are marked with an asterisk (*).

Owner * Repository name *
2201031800010 is available.

Great repository names are short and memorable. Need inspiration? How about [shiny-dollop](#) ?

Description (optional)

☒ **Public**
Anyone on the internet can see this repository. You choose who can commit.

☐ **Private**
You choose who can see and commit to this repository.

Initialize this repository with:

☒ **Add a README file**
This is where you can write a long description for your project. [Learn more about READMEs.](#)

Add .gitignore

.gitignore template:

Choose which files not to track from a list of templates. [Learn more about ignoring files.](#)

Choose a license

License:

A license tells others what they can and can't do with your code. [Learn more about licenses.](#)
